

Roverpet #FSX36 36" high x 72" wide Freestanding Expandable Gate Assembly Instructions

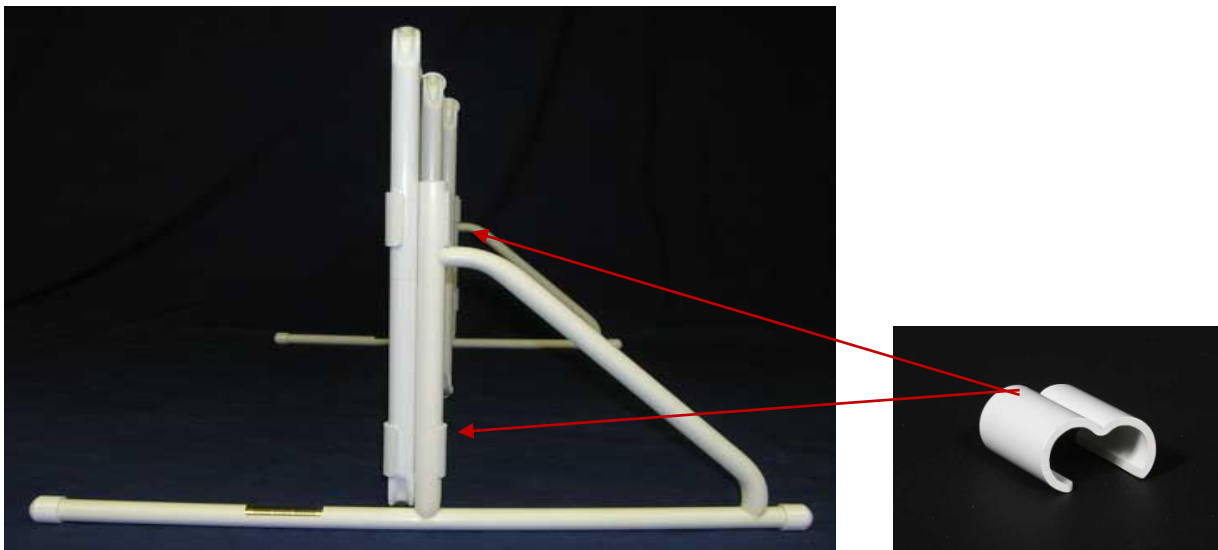

Thank you for purchasing your new Roverpet Freestanding Expandable Pet Gate **#FSX36**. These instructions will explain how to assemble this Roverpet Expandable Freestanding Pet Gate, of similar height, to increase its variable potential width to 72".

STEP1: The Roverpet Freestanding Expandable Pet Gate includes:

- (3) **#136** 36" high panels
- (2) **#FSL-B** "Large Leg"
- (8) **#250** divider clips
- (4) **#RGH** gate clips
- (2) **#180** stabilizers

STEP 2: Attach the (4) **#RGH** clips to your Roverpet panels as shown in the photo below;

STEP 3: Once the #RGH is attached to the #FSL-B leg, then attach the panels to the #RGH by clipping the panels into the #RGH.

STEP 4: Overlapping the Roverpet PVC Panels, use the below accessories:

- #250 divider clip (when adjusting panels to desired width, clip over 2 panels @ the top & bottom... as seen in attached photo) of each panel

Congratulations, you are now ready to use your Roverpet Freestanding Expandable Pet Gate #FSX36!
