

Roverpet Bathing/ Grooming Mobile Crate #Z3626DSW8 Assembly Instructions

Inventory for The Roverpet Mobile Grooming Crate 36" high 2' x 6' #Z3626DSW8 includes:

- (5) **#136** 36" high panels
- (4) **#90** corner stabilizers
- (4) **#180** straight stabilizers
- (15) **#200** panel hinges clips
- (1) **#G22** 2' x 2' grate
- (1) **#D36** 36" high door
- (1) **#G24** 2' x 4' grate
- (1) **#GW246** 2' x 6' drilled wheeled frame
- (3) **#NLC** non locking casters
- (3) **#LC** locking casters
- (6) **#CWC** caster wheel clips
- (20) **#250** floor divider clips
- (6) **#CWS34** caster wheel washers

Note: Actual unit will be 2' longer then shown in above photo

Step 1: Begin by inserting the wheel washer around the shaft of the wheel. Next insert the wheel's shaft up and into the holes on the frame. The locking caster wheels should go into the holes farthest from the ends. Slide the caster wheel clip

onto and around the shaft notch protruding up from the pipe frame. Do this to all four corners.

Step 2: Unfold the panels you have purchased into the shape of a 2' x 6' and position them around the wheeled frame. Secure the Roverpet mobile grooming pet crate to the frame by snapping on the #250 floor divider clips to the frame and the lower panel bar.

Step 3: Connect the (4) #90 corner stabilizers (4) #180 straight stabilizers to the top of the mobile grooming pet crate.

Max load weight is 80 lbs for this pet crate.

Congratulations! You are now ready to use your Roverpet **#Z3626DSW8** Mobile Grooming Pet Crate.
